FOR IMMEDIATE RELEASE: September 19, 2011

IATRIC SYSTEMS MEANINGFUL USE MANAGER 2.0 RECEIVES ANOTHER ONC-ATCB 2011/2012 CERTIFICATION FOR CLINICAL QUALITY MEASURES COMPONENT

September 19, 2011 – Iatric Systems, Inc. announced today that its Meaningful Use Manager, which received initial certification June 15, 2011 has now expanded its certification with its new Clinical Quality Measures (CQM) component. The Clinical Quality Measures component, which provides Numerator/Denominator values and submission for the 15 Meaningful Use Quality reports, was certified as an EHR Module on September 1, 2011 by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ATCB, in accordance with the applicable hospital certification criteria adopted by the Secretary of Health and Human Services. The 2011/2012 criteria support the Stage 1 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

Joel Berman, President and CEO of Iatric Systems, states, "Our goal at Iatric Systems is to make it easier for healthcare providers to share medical information in a safe and practical way. We are proud to offer an extensive suite of solutions to help support hospitals and healthcare providers to meet Meaningful Use criteria. We listened to our customers' challenges with meeting the Core 9 CQM objective, and now we are providing a certified solution to help them calculate and submit the Meaningful Use clinical quality measures."

"CCHIT is pleased to be testing and certifying products so that companies are now able to offer these products to providers who wish to purchase and implement certified EHR

technology and achieve meaningful use in time for the 2011-2012 incentives,” said Karen M. Bell, M.D., M.S.S., Chair, CCHIT.

Iatric Systems Meaningful Use Manager with the Clinical Quality Measures component was certified as an EHR Module, certification number CC-1112-290560-17. This EHR Module is 2011/2012 compliant and was certified by an ONC-ATCB on September 1, 2011, in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. The certification criteria that were met include 170.306(i). This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.

Clinical Quality Measures is offered as a component of Meaningful Use Manager, which received ONC-ATCB certification in June 2011. Meaningful Use Manager is a tool that can be used to track progress against meeting Meaningful Use criteria for Stage 1. Meaningful Use Manager with Clinical Quality Measures from Iatric Systems provides reporting capabilities that allow hospitals to electronically submit calculated quality measures for attestation in accordance with Meaningful Use standards and implementation specifications.

ONC-ATCB 2011/2012 certification conferred by CCHIT does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.

About Iatric Systems, Inc.

Recognized by Inc. 5000 as one of the fastest growing privately held companies for the past four years, Iatric Systems helps hospitals and health systems leverage their HIS investment with software, interfaces and reporting services. Since 1990, more than 900 hospitals worldwide have implemented Iatric Systems solutions; optimizing patient care and staff workflow in clinical, financial and administrative areas. About CCHIT

The Certification Commission for Health Information Technology (CCHIT®) is an independent, 501(c)3 nonprofit organization with the public mission of accelerating the adoption of robust, interoperable health information technology. The Commission has been certifying electronic health record technology since 2006 and is approved by the Office of the National Coordinator for Health Information Technology (ONC) of the U.S. Department of Health and Human Services (HHS) as an Authorized Testing and Certification Body (ONC-ATCB). More information on CCHIT, CCHIT Certified® products and ONC-ATCB certified electronic health record technology is available at <http://cchit.org>.

About ONC-ATCB 2011/2012 certification

The ONC-ATCB 2011/2012 certification program tests and certifies that EHR technology is capable of meeting the 2011/2012 criteria approved by the Secretary of Health and Human Services (HHS). The certifications include Complete EHRs, which meet all of the 2011/2012 criteria for either eligible provider or hospital technology and EHR Modules, which meet one or more – but not all – of the criteria. ONC-ATCB certification aligns with [Health Information Technology: Initial Set of Standards, Implementation Specifications, and Certification Criteria for Electronic Health Record Technology](#) published in the Federal Register in July 2010 and strictly adheres to the [test procedures](#) published by the National Institute of Standards and Technology (NIST) at the time of testing. ONC-ATCB 2011/2012 certification conferred by the Certification Commission for Health Information Technology (CCHIT®) does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.
