iatricSystems™

Patient Privacy Managed Services™

You need to protect your patients — and your reputation — against PHI data breaches.

You'd like your patient privacy program to incorporate proactive privacy audits so you can ensure unauthorized accesses don't evolve into major threats. You also want to ensure you're fully prepared for a possible OCR audit. But, you may not have the resources to accomplish these goals alone.

iatricSystems™ can help.

When you choose our Patient Privacy Managed Services™, you'll add skilled consultants and privacy analysts to your team. With expert support that doesn't break the bank, your patient privacy program will be fully optimized.

Your PHI — Protected by technology. Verified by humans.

Choose the level of assistance that's right for you

iatricSystems has the expertise to help you build a culture of compliance throughout your organization and change your patient privacy program from one that's reactive to one that's instead proactive. We offer two levels of assistance to lighten your load:

- Remote Privacy Auditing Services
- Privacy Consulting Services from GreyCastle Security

Achieve a Proactive Patient Privacy Program with Privacy Auditing Services

Our privacy analysts will monitor PHI access, identify inappropriate activity, and vet suspicious incidents for risk prior to escalation to your staff. Our Privacy Auditing Services include:
