

Iatric® Systems Inc. Invited to Participate in: *Leadership in Privacy and Security Risk Management Professional Certification Program*

Wakefield, Mass., July 15, 2019 – [Iatric® Systems, Inc.](#), a healthcare technology company dedicated to helping healthcare organizations enhance their IT investments, today announced that it has been invited to participate in The University of Texas at Austin, McCombs School of Business, first in the nation *Leadership in Healthcare Privacy and Security Risk Management* professional education program. Tim Burris, Product Manager, Privacy and Security for Iatric Systems will participate in the program to demonstrate automated patient privacy monitoring during an educational session to introduce students to this technology.

Rob Rhodes, Executive Vice President, Iatric Systems said, “We are honored to be participating in the professional certificate program through the McCombs School of Business to provide a technology demonstration of our solution. Healthcare privacy and security risk management is not just a trend topic with an easy solution. The future of healthcare privacy and security depends on trained leaders who are prepared to exercise real-world competencies for this on-going challenge.”

“We are especially grateful to all of the companies who have so graciously offered to donate their time and expertise to expose our students to privacy and cybersecurity technologies,” said Dr. Leanne Field, Co-Director of the *Leadership in Healthcare Privacy and Security Risk Management* professional certificate program. We appreciate Iatric Systems for enriching this course for our students.”

About Iatric Systems, Inc.

Iatric Systems, an independent business unit of Harris Healthcare, is a healthcare technology company dedicated to helping hospitals enhance their IT investments. We do so with our diverse healthcare experience, an extensive partner network, and our proven capabilities in privacy and security, EHR optimization, and interoperability. Systems at info@iatric.com, visit our website at www.iatric.com, or connect with us on [Twitter](#), [Facebook](#), and [LinkedIn](#).

About the Leadership in Healthcare Privacy and Security Risk Management Professional Certificate Program

The increasing number of cyber threats puts the global healthcare infrastructure at critical risk. The global cybersecurity workforce will have more than by 2022. The McCombs School of Business is helping to close this gap by collaborating with industry, healthcare organizations, and governmental agencies to develop leaders in healthcare privacy and cybersecurity through the launch of a focused professional certificate program. This innovative leadership program will rapidly equip individuals with the knowledge, leadership skills, and problem-solving competencies needed to manage risk in healthcare environments.
