

REAL WORLD TESTING RESULTS REPORT

GENERAL INFORMATION

Real World Testing Plan ID: 20231206ia2

Product Analytics on Demand

Develop: Iatric Systems, Inc

Version: 2.0

CHPL Product ID: 15.05.05.2760.ISAD.02.01.0.240819 (current), 15.05.05.2760.ISAD.01.00.0.180412 (previous)

Criteria 170.315 (c)(1),(c)(2),(c)(3) – certification withdrawn, 8/20/2024

Real World Testing URL: <https://iatric.com/meaningful-use/real-world-testing/>

Summary of Change [Summarize each element that changed between the plan and the actual execution of Real World Testing]	Reason [Describe the reason this change occurred]	Impact [Describe what impact this change had on the execution of your Real World Testing activities]
170.315 (c)(1): Clinical Quality Measures - Record and Export	Quality measure criterion withdrew from certification because no active customers utilized the software for quality measure analytics or submission of quality measures for the PI Program, including customer cancellations of the quality measure model. Base EHRs include the software needed to support criterion and workflow, incentivizing customers to upgrade their EHR. We understand it makes sense for the customer to take advantage of opportunities for financial gain and improved clinical workflow. Due to cost and lack of available market, quality measures not actively marketed.	Unable to confirm measure development progress.
170.315 (c)(2): Clinical Quality Measures - Import and Calculate		
170.315 (c)(3): Clinical Quality Measures - Report		

SUMMARY OF TESTING METHODS AND KEY FINDINGS

170.315 (c)(1): Clinical Quality Measures - Record and Export
170.315 (c)(2): Clinical Quality Measures - Import and Calculate
170.315 (c)(3): Clinical Quality Measures - Report

The overall expected outcome was to validate conformance to criteria 170.315 (c)(1) record and export, 170.315(c)(2) import and calculate, and 170.315(c)(3) report patient health data in the required file format for reporting measure data. However, criterion withdrawn from certification.

No active customers including software cancellations due to increased customer base moving to upgraded electronic health records systems or migrating to new electronic health records vendors which includes quality measure needed to support workflow and PI program.

Relied upon software-NA; Challenges encountered as stated; Care Setting-Hospital Care Software does not include SVAP or updates.
